

TM4 Touch Interface Module

A Touch of Paradox

Description

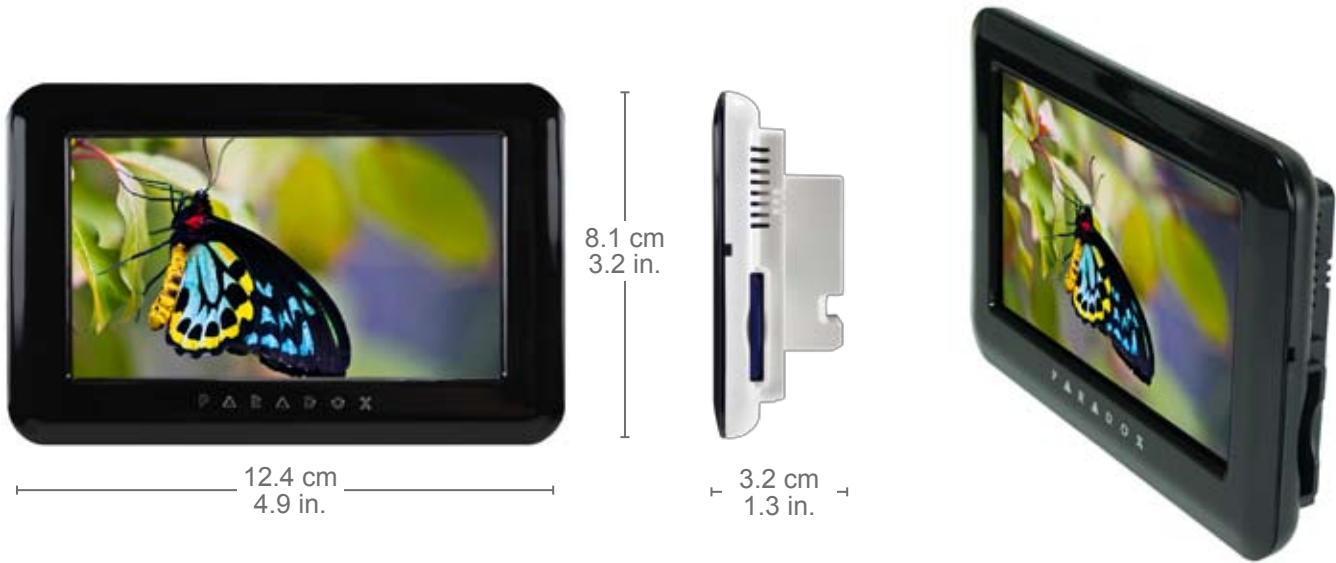

The TM4 Touch Interface Module allows you to control your system's security functions through its touchscreen interface. The TM4 includes many convenient built-in features, such as an integrated SD media card slot, and sensors for indoor/outdoor temperature and humidity.

With its bright display, intuitive icons, and menu-driven interface, the TM4 reflects Paradox's commitment to user-centric design.

Features

- Intuitive icon-based user interface via touchscreen with quick menu-driven prompts
- 4.3-inch (10.9 cm) brilliant and vivid widescreen color display
- Customizable labels: zones, areas, users, and PGM outputs
- External SD media card slot for uploading custom themes and sounds, photos for use with the slide show function, and for upgrading firmware
- Powerful FPGA processor
- Built-in sensors for indoor/outdoor temperature and humidity
- Customized translation done via web application
- Clean screen mode: locks screen for easy cleaning

TM4 Overview

- **User-friendly**

Featuring intuitive menus and icons, ultra-fast response time when scrolling through pages, and clear and precise menu-driven prompts, the TM4 makes the user experience easier than ever.

- **External SD Media Card Slot**

Used to download custom themes and sounds, upload photos for use with the slideshow function, and upgrade firmware.

- **Sensors**

The TM4 provides built-in sensors for indoor/outdoor temperature and indoor humidity.

- **Customizable Labels**

Allows the user to customize and edit zone, area, user, and PGM output labels, filter zone/area lists by their status, and find specific zones/areas by using a search function.
